Character Education Connections: Respect, Integrity, Empathy

Themes: Gender Identity, Diversity, Equity

Ladies and Gentlemen, Boys and Girls follows the story of 9-year-old Fiona who comes out as male-identified Fin. Fiona has always had this feeling – knowing something is different but not knowing what it was or how to say it. Fiona cuts her hair short and asks her family to start using the name Fin. Dad is accepting of the change right away, but Mom doesn't quite get it at first. Always from a place of good intentions, we see Fin's family struggle with this change and through the course of the play ultimately begin to accept and embrace Fin for who he is.

Not everything has to make sense all the time. Mermaids don't make sense, but you still love them.

-Fin

I don't want to have to tell people one person at a time. I want them just to know and to just get over it so that I can just be a kid...

-Fin
